WHY YOU? Let California Ring is a coalition campaign. About 45 LGBT and ally organizations have come together to stand for fairness, freedom and the principle that all people should have the same chance to realize their hopes and dreams. As a supporter of API Equality, we know you believe it is unfair for the government to deny same-sex couples the right to marry. Everyone should have the freedom to make this decision.

WHY CALIFORNIA? Massachusetts, the only state in the nation that does not exclude same-sex couples from marriage, is safe from repeal. Now all eyes are on California.

WHY NOW? We have a short six-month window before the kick-off of the presidential primary season in California. In that time our goal is to identify new supporters and mobilize caring activists and allies through a massive public education campaign. To learn more, go to: www.LetCaliforniaRing.org.
